A message from the head.....

It has been lovely this week seeing so many families coming to collect their home learning packs – thank you for taking the time to come and collect them, we only have a small amount to deliver today so thank you.

If you are looking for additional resources to use to support with home learning please can I encourage you to take a look at our website as there are links there to online resources such as the White Rose Maths Hub, the BBC Bitesize and the new National Oak Academy. There is a section on our website called 'home learning' and then from the drop down menu choose your child's year group to learn about additional resources. There are also links to online e – books should your child run out of reading books!

During this period of lockdown please can I request that you don't call the school office as we do not have anyone working in the office each day. All of our office staff are working remotely at home so if you need to get in touch with the school please email the enquiries and someone will get back to you.

Have a nice weekend,
Denise Burgess
Headteacher

See Saw and Calls home

If you have received a call this week from your child's teacher please do not worry! The teachers will be calling every child in their class regularly to see how they are. The number may come up as a withheld number. We have had such positive feedback already from parents and children who have enjoyed speaking to the teachers! Please can I also remind you to encourage your child to login to See Saw each day as teachers are posting daily challenges, reading stories and responding to work that has been uploaded. I will also be doing celebration assembly each Thursday for the children to watch – tune in to see if your child has been awarded the star of the week by their teacher! On the next page you can see some of the fantastic home learning from this week!

My script on deforestation
 effects of deforestation is loss
 of animals and plant species
 In addition to the loss
 of habitats the lack of trees
 also allows a greater amount
 of greenhouse gases to
 be released into the
 atmosphere. presently the tropical
 of south America are
 responsible for 20% of the
 earth's oxygen and they
 are disappearing at a rate of
 4 hectares a decade
 The trees also help control
 the level of water in
 the atmosphere. By Joe-Joe

"We have a long way
to go" sighed the boy.

"Yes but look how far
we have come" said the
horse.

Charlie Mackay
